SUMMARY

B.Tech Computer Science student with strong foundations in DSA, OOP, DBMS, and Machine Learning. Skilled in C++, Python, SQL, and AI/ML, with experience building predictive models and web applications.

PROJECTS

Personal Portfolio | React.js, Vercel
- Developed a responsive personal portfolio website using React.js to showcase skills, projects, and professional achievements.
- Added interactive navigation, social profile links, and a resume button that opens the PDF in a new browser tab.
- Deployed the website on Vercel with GitHub integration for streamlined updates and continuous deployment.

Github Repository :- https://github.com/YashChandiramani/Portfolio
Live Demo :- https://yash-chandiramani-portfolio.vercel.app/

ECG Noise Analyzer | Python, FastAPI, React, PyTorch, CNN, ResNet-18
- Processed ECG signals and analyzed noise using signal processing and deep learning techniques.
- Applied Continuous Wavelet Transform (CWT) to convert ECG signals into scalograms for model training.
- Trained deep learning models using CNN and ResNet-18 for ECG noise classification.
- Developed a web application for ECG CSV uploads and noise analysis using React and FastAPI.

Github Repository :- https://github.com/YashChandiramani/ECG_Noise_Analyser
Live Demo :- https://ecg-noise-analyser.vercel.app/

Student Score Prediction | Python, Scikit-Learn, Linear Regression, Streamlit
- Developed a machine learning model to predict student academic performance using educational and behavioral data. Achieved 80% prediction accuracy on unseen test data..
- Performed data preprocessing, feature engineering, exploratory data analysis, and model evaluation.
- Linear Regression model used to calculate the score of the student.
- Built an interactive Streamlit application for real-time score prediction and result visualization.

Github Repository :- https://github.com/YashChandiramani/Student_Score_Prediction_ML_Project
Live Demo :- https://studentscorepredictionmlproject-rvjmpdg8weccwvm5gtuube.streamlit.app/

Heart Disease Prediction System | Python, Scikit-Learn, Pandas, NumPy
- Developed a machine learning-based heart disease prediction system using patient health parameters. Achieved 80% classification accuracy.
- Performed data preprocessing, feature engineering, and exploratory data analysis to improve model quality.
- Trained and compared Logistic Regression, Random Forest, and XGBoost classification models.
- Developed an interactive interface for real-time heart disease risk prediction.

Github Repository :- https://github.com/YashChandiramani/AI-ML-Project

C&J Vehicle Service Center | HTML, CSS, JavaScript, PHP, MySQL
- Developed a full-stack vehicle service management web application with customer and employee portals.
- Implemented secure authentication and role-based access control for different user types.
- Built online vehicle service booking, tracking, and status management functionalities.
- Integrated MySQL CRUD operations for customer, vehicle, booking, and payment management.

Github Repository :- https://github.com/YashChandiramani/WebDeveleopmentProject

EXPERIENCE

AI/ML Intern | **Malaviya National Institute of Technology, Jaipur** **May 2026 – June 2026**
- Worked on machine learning solutions using Python, Pandas, NumPy, and Scikit-Learn.
- Performed data preprocessing, feature engineering, and model evaluation on structured datasets.

Project Lead | **Swami Keshvanand Institute of Technology, Jaipur** **July 2025 – July 2025**
- Led a student team in planning and delivering a technical project on time.
- Managed task allocation, documentation, testing, and coordination with mentors.

TECHNICAL SKILLS

- Programming Languages: C, C++, Python, SQL
- Machine Learning: Scikit-Learn, XGBoost, Pandas, NumPy
- Web Development: HTML, CSS, PHP
- Database: MySQL
- Developer Tools: Git, GitHub, Streamlit
- Core Subjects: DSA, OOP, DBMS, Operating Systems

EDUCATION

Bachelor of Technology in Computer Science & Engineering - 9.45 CGPA **2024- 2028**
Swami Keshvanand Institute of Technology, Jaipur

Class 12th (CBSE) - 93.4 % , Class 10th (CBSE) - 94.2 % **2011 - 2023**
Jayshree Periwal High School, Jaipur

CERTIFICATIONS

- Elite Certificate NPTEL Programming, Data Structures and Algorithms using Python - IIT Madras
- Programming in C NPTEL Certificate - IIT Kharagpur
- Artificial Intelligence Fundamentals - IBM Skill Build

AWARDS & ACHIEVEMENTS

- Solved 500+ Data Structures & Algorithms problems on LeetCode.
- Earned LeetCode 100-Day and 200-Day coding consistency badges.
